## Second Sight

### Second Sight

My eyes were clearer then  
or were they always so discolored?

Like one color eating the other  
brown eating the green  
because simple blue had grown too obscene.

I have a history of repetition and spiked rendition  
I am only acting for myself  
so be forewarned of my second sight  
I see things others might.

I record my hallucinations  
many find too maiming  
but I do not need restraining.

I want to know if my eyes always looked like this?  
You probably don't remember  
or don't want to.

But you were the first one who looked  
at me the way I wanted.

You were the first one  
who pointed out my eyes were different.

Unfortunately the rest of me  
wasn't different enough to create a history.
